

Convenient and Fast Installation Aluminium Coupler for Various Scaffolding Components

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: bythai
- Certification: SGS,ISO
- Model Number: BT204
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: L/C, T/T

Product Specification

- Features: High Strength, Corrosion Resistance, Easy To Install
- Finish: Galvanized
- Matetyperial: Scaffolding Parts
- Oem: Available
- Package: Carton Or As Per Customer's Requirement
- Quality Certification: SGS
- Sample: Available
- Size: 48.3mm
- Standard: EN74
- Surface Treatment: Galvanized

Product Description

Aluminium coupler

Product Details

High-quality materials: Made of high-quality aluminum alloy materials, it is lightweight and has excellent corrosion resistance, and is suitable for various indoor and outdoor environments.

High strength: Aluminum alloy material has high strength and rigidity and can withstand a large amount of weight and pressure, ensuring the stability and safety of the connector.

Precision manufacturing: Connectors undergo precision processing and quality inspection to ensure that the size and quality of each connector meet standard requirements and provide reliable connection effects.

Multifunctional design: Connectors can be used to connect various components of the scaffolding frame, such as horizontal bars, vertical bars, etc., to achieve connection and support in different directions, enhancing the stability and reliability of the entire scaffolding.

Easy to install: The design is simple, and the installation is convenient and fast. No professional tools are required, which can greatly save construction time and labor costs.

Applicable scene:

Construction sites: Suitable for scaffolding erection and connection at all types of construction sites.

Interior decoration: used for scaffolding connection and support in interior decoration projects.

Bridge maintenance: Suitable for scaffolding erection and connection in bridge maintenance and construction.

Place of Origin	China
Tube	48-51mm
SWL	100kg
material	Aluminum Alloy 6061-T6
Color	Any colors are available
