

Q235 Steel Pre-galvanized/Hot Dip Galvanized Scaffolding Plank for Construction

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT02
- Delivery Time: 10-15 Working Days
- Payment Terms: T/T

Product Specification

- Features: High Strength, Durable
- Edge: Smooth
- Packaging: Container
- Length: Customized
- Design: Standard
- Usage: Scaffolding
- Weight: Customized
- Surface: Pre-galvanized/hot Dip Galvanized
- Thickness: 1.5in
- Package: Pallet
- Structure: Solid
- Fire Resistance: Yes
- Standard: FN12R11 RS1139

Product Description

Product Description:

Our steel pre-galvanized and hot dip galvanized scaffolding planks are engineered for robust performance in demanding construction and industrial settings. These planks are treated with a protective zinc coating to prevent rust and corrosion, ensuring longevity and durability. Ideal for various applications, these planks provide a secure platform for workers, enhancing safety on-site. With easy installation and minimal maintenance required, our galvanized scaffolding planks are a cost-effective solution for any project. Trust in our quality to deliver reliable and efficient scaffolding solutions for your construction and industrial needs.

Features:

Product Name: Scaffolding Plank
Usage: Supporting Board for Scaffolding
Weight: Customized
Packaging: Container
Surface: Pre-galvanized/hot Dip Galvanized
Width: Customized

Technical Parameters:

Types	Width(m m)	Height(m m)	Thickness(m m)	Length(m m)	Surface	Material	Standard
210	210	45	1.2	500-4000	Pre-Galvanized HDG	Q195,Q235	BS1139, EN12811
240	240	45	1.2				
250	250	50	1.2				
225	225	38	1.5				

Details Pictures:

Certificates:

The collage displays five documents related to quality management and testing:

- Top Left:** hsd Quality Management Certification for Huihe Scouting Co., Ltd. (Certificate No. 201808010008). It includes the company's registered and business addresses in China and the scope of certification.
- Top Middle:** SGS TEST REPORT for Huihe Scouting Co., Ltd. (Customer No. 422920). It details the test results for various parameters.
- Top Right:** Another SGS TEST REPORT for Huihe Scouting Co., Ltd. (Customer No. 422920), showing test results for different samples.
- Bottom Left:** A third SGS TEST REPORT for Huihe Scouting Co., Ltd. (Customer No. 422920), providing further test data.
- Bottom Middle:** A detailed technical report with multiple tables and charts, likely related to the testing procedures.
- Bottom Right:** A 'CERTIFIED TRUE COPY' stamp with a 'TELEX RELEASE' stamp, indicating the authenticity and release status of the documents.

Applications:

Bythai BT02 metal plank is a perfect choice for scaffolding applications. It is made with a solid structure, which ensures its high strength and durability. It is available in a variety of widths to meet different requirements. The weight of this metal plank can be customized for different projects. Its steel color provides an attractive look to the construction sites. This scaffold supporting plank is ideal for scaffolding, and it is widely used in the construction industry as a supporting board for scaffolding.

Customization:

Are you looking for a high-quality **Scaffold Supporting Plank**? Look no further than Bythai's **BT02** model. This product is manufactured in **China** with a **pre-galvanized/hot dip galvanized** surface. Made of **steel**, it can be customized in length and thickness according to your needs. It is perfect for **scaffolding**.

Support and Services:

Technical support and service for Scaffolding Plank are available to provide customers with the necessary guidance and assistance. Our experienced team of professionals is available round the clock for any queries and issues related to the product. We offer a range of solutions, from troubleshooting and repair to installation and maintenance, to ensure that our customers get the most out of their purchases. Additionally, our customer service team is always available to answer any questions or concerns.

FAQ:

Q: What types of scaffolding systems do you offer?

A: We offer a variety of scaffolding systems, including ring lock, frame, prop, tube & coupler systems, steel and aluminum planks, and various scaffolding accessories.

Q: How does your quality control process ensure the safety and reliability of your scaffolding products?

A: Our strict quality control process includes thorough inspections, material testing, and adherence to international safety standards to ensure our scaffolding products are safe and reliable.

Q: Can you provide customized scaffolding solutions to meet specific project requirements?

A: Yes, we offer customized scaffolding solutions tailored to meet the unique needs of your project, ensuring optimal performance and safety.

Q: What is the typical lead time for orders, and how do you handle urgent requests?

A: Our standard lead time varies depending on the order size and complexity, but we prioritize urgent requests to ensure timely delivery without compromising quality.

Q: Do you offer support and guidance for scaffolding assembly and installation?

A: Yes, we provide comprehensive support, including detailed assembly instructions and technical assistance to ensure proper installation and safe use of our scaffolding systems.

Q: What are the key advantages of using your aluminum ringlock system?

A: Our aluminum ringlock system offers several advantages, including lightweight design, easy assembly, high load capacity, durability, and corrosion resistance, making it ideal for various construction projects.

Q: How do your prices compare to other scaffolding suppliers?

A: We offer competitive factory prices while maintaining high-quality standards, providing cost-effective solutions that deliver excellent value for your investment.

Q: What certifications and standards do your scaffolding products meet?

A: Our scaffolding products meet international certifications and standards, including OSHA, EN, and ISO, ensuring they comply with the highest safety and quality requirements.

Q: Can you provide references or case studies from past projects?

A: Yes, we can provide references and case studies showcasing our successful projects and satisfied customers to demonstrate our expertise and reliability.

Q: What is the process for placing an order and what payment options do you accept?

A: Placing an order is simple: contact our sales team with your requirements, receive a detailed quote, and finalize the order. We accept various payment options, including TT, letters of credit, and other secure methods.
