

48.3mm Galvanised Scaffold Tube Bending Radius 2.5D 245N/mm2

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai Scaffolding
- Certification: SGS
- Model Number: BT01
- Price: \$5-\$18
- Packaging Details: In bundles
- Delivery Time: 7-15 days
- Payment Terms: TT/LC
- Supply Ability: 1000tons per month

Product Specification

- Material: Galvanised Steel
- Standard: EN39
- Thickness: 3.2mm
- Corrosion Resistance: Excellent
- Tensile Strength: 420N/mm2
- Name: Galvanised Scaffold Tube
- Diameter: 48.3mm
- Elongation: >20%

Product Description

Product Description:

Our **Galvanised Scaffold Tube** is a top quality scaffold piping solution that is ideal for a variety of applications. The galvanised surface treatment provides superior protection against corrosion, while the 48.3mm diameter offers a reliable, structurally sound construction. Manufactured to EN39 standards, this galvanised scaffolding tube is suitable for use in all types of scaffolding projects. Our scaffolding tube is the perfect choice for roofing and other construction projects, ensuring a reliable, secure solution.

The **Galvanised Scaffolding Tube** is designed for maximum durability and strength, and is suitable for a wide range of construction projects. The galvanised surface treatment provides superior protection against corrosion and rust, ensuring a long-lasting and reliable solution. Our galvanised scaffold piping is manufactured to EN39 standards, ensuring a structurally sound and reliable construction. The 48.3mm diameter ensures a secure, stable and dependable solution.

At our company, we provide a range of top quality galvanised scaffold piping solutions, including our **Galvanised Scaffold Tube**. Our galvanised scaffolding tube is the perfect choice for construction projects, providing a secure and reliable solution that is designed to withstand the elements. The galvanised surface treatment and EN39 standards provide superior protection against corrosion and rust, ensuring a durable and long-lasting solution. The 48.3mm diameter ensures a structurally sound and reliable construction, making it the ideal choice for any scaffolding project.

Features:

Product Name: Galvanised Scaffold Tube

Weight: 6.4kg/m

Standard: EN39

Corrosion Resistance: Excellent

Application: Scaffolding

Surface Treatment: Galvanised

Focus: Galvanised Scaffold Piping, Galvanised Metal Scaffolding Tube, Galvanised Steel Scaffold Tube

Technical Parameters:

Property	Value
Name	Galvanised Scaffold Tube
Material	Galvanised Steel
Thickness	3.2mm
Yield Strength	245N/mm ²
Tensile Strength	420N/mm ²
Standard	EN39
Corrosion Resistance	Excellent
Elongation	>20%
Bending Radius	>2.5D
Application	Scaffolding

Applications:

Galvanised Scaffold Tube

Bythai Scaffolding's Galvanised Steel Scaffold Tube (Model Number: BT01) is certified by SGS, with a price range of \$5-\$18, and is packaged in bundles. It can be delivered within 7-15 days after payment is received, with a supply of 1000 tons per month. It has a weight of 6.4 kg/m and a length of 6 m, with a diameter of 48.3 mm. This product is mainly used as scaffolding.

Our Galvanised Scaffold Piping is an ideal choice for scaffolding, as it is made from galvanised steel, providing it with superior durability, strength and corrosion resistance. It is the perfect solution to ensure safety and stability during construction. Accepted payment terms are TT/LC.

Customization:

Galvanised Scaffold Tube

Brand Name: Bythai Scaffolding

Model Number: BT01

Place of Origin: China

Certification: SGS

Price: \$5-\$18
Packaging Details: In bundles
Delivery Time: 7-15 days
Payment Terms: TT/LC
Supply Ability: 1000tons per month
Surface Treatment: Galvanised
Name: Galvanised Scaffold Tube
Standard: EN39
Corrosion Resistance: Excellent
Material: Galvanised Steel
Galvanised Scaffold Piping, Galvanised Steel Scaffolding Tube, Galvanised Scaffolding Tube, EN39 Galvanised Scaffold Tube

Packing and Shipping:

Galvanised Scaffold Tube Packaging and Shipping:
Each tube is individually wrapped with plastic and securely packed in a cardboard box.
We use durable shipping containers to ensure safe and secure delivery.
All orders are sent via a reliable and secure courier service.
We offer a same-day delivery service to many parts of the UK and Europe.

FAQ:

Q: What is Galvanised Scaffold Tube?

A: Galvanised Scaffold Tube is a type of piping system used in the construction industry for scaffolding.

Q: What is the brand name of this product?

A: The brand name of this product is Bythai Scaffolding.

Q: What is the model number of this product?

A: The model number of this product is BT01.

Q: Where is this product from?

A: This product is from China.

Q: What certifications does this product have?

A: This product has SGS certification.
