

High Stability and Easy Installation Frame System Scaffolding with Powder Coating

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT04

Product Specification

- Material: Steel
- Load Capacity: High
- Color: Steel, Painted Color
- Easy Installation: Yes
- Weight: Lightweight
- Easy Dismantling: Yes
- Cost-effectiveness: Yes
- Durability: High

Product Description

Product Description:

Frame System Scaffolding is a high-performance, h-frame scaffolding system that provides an efficient yet safe solution for a variety of construction projects. It is an ideal choice for contractors who demand high load capacity, stability, reusability, easy installation, and safety. The h-frame design ensures that the scaffolding can hold large loads, while its stability ensures that it can safely withstand wind and other environmental conditions. The frame system is designed with reusability in mind, allowing for quick and easy installation and removal. It is also designed with safety in mind, featuring non-slip surfaces and guardrails for increased safety. All in all, Frame System Scaffolding is an ideal choice for contractors who demand a high-performance, safe, and efficient scaffolding system.

Features:

Product Name: Frame System Scaffolding

Load Capacity: High

Material: Steel

Size: Customized

Weight: Lightweight

Safety: High

Features: Scaffold Mobile Frame, Scaffolding System for Construction, Scaffold Mobile Frame System

Technical Parameters:

Parameter	Value
Reusability	Yes
Weight	Lightweight
Color	Steel, Painted Color
Load Capacity	High
Size	Customized
Stability	High
Safety	High
Easy Dismantling	Yes
Flexibility	High
Easy Installation	Yes
Frame System Structuring	Ladder Frame, Ladder Frame System, Metal Frame System

Applications:

Bythai BT04 Frame System Scaffolding

Bythai BT04 frame system scaffolding offers high load capacity and great safety for construction sites. Our mobile scaffold frame system is easy to dismantle and highly cost-effective. It is made with steel, making it ideal for a wide range of applications.

The Bythai BT04 frame system scaffolding is an American Frame System designed for construction sites. It provides a high load capacity and is very safe to use. It is highly cost-effective and easy to dismantle, making it one of the most popular scaffolds on the market.

The Bythai BT04 frame system scaffolding is perfect for any construction site. It is easy to assemble and provides a secure and stable platform for workers. The steel construction makes it durable and reliable, making it a great choice for any construction project.

Customization:

Bythai BT04 Frame System Scaffolding

Bythai BT04 Frame System Scaffolding is a construction scaffolding system that is designed for high flexibility, stability, and durability. Featuring a lightweight design and powder coating surface treatment, this product is an ideal choice for any construction site.

Brand Name: Bythai

Model Number: BT04

Place of Origin: China

Surface Treatment: Powder Coating

Flexibility: High

Stability: High

Durability: High

Weight: Lightweight

Bythai BT04 Frame System Scaffolding is the perfect scaffolding system for any construction project. Tested and certified, it is sure to provide you with the highest level of stability and security.

Support and Services:

Frame System Scaffolding offers technical support and services to help customers get the most out of their products. Our team of experienced professionals can provide assistance with installation, maintenance, and troubleshooting. We also offer training and tutorials to help users understand the features and capabilities of Frame System Scaffolding.

In addition, Frame System Scaffolding offers a variety of customer service options, including online support, phone support, and email support. Customers can contact our customer service team with any questions or concerns they may have. We are always available to answer any questions and provide assistance with any technical issues.

At Frame System Scaffolding, we strive to ensure that our customers receive the best possible experience. Our customer service team is committed to providing superior customer service and technical support. We want our customers to be satisfied with our products and services and to feel confident that they have made the right choice.
