Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Place Of Shipment: China
- Length: Customized
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Usage: Scaffolding
- Packaging: Container
- Material: Steel
- Highlight: Customized Galvanized Scaffolding Plank, Hot Galvanized Steel Scaffolding Plank

Product Description

Product Description:

Scaffolding Plank - Product Overview

The Scaffolding Plank is a versatile and essential component of any scaffolding system. Made from high-quality steel, it provides a strong and durable platform for workers to perform their tasks safely and efficiently. Our scaffolding plank is designed to meet the highest standards of safety and quality, making it the ideal choice for any construction project.

Surface Options

Our Scaffolding Plank is available in three different surface options: Pre-galvanized, Hot Dip Galvanized, and Spray Plastic. The pre-galvanized surface is coated with a layer of zinc to protect the steel from corrosion, making it suitable for both indoor and outdoor use. The hot dip galvanized surface has a thicker layer of zinc coating, providing maximum protection against rust and harsh weather conditions. The spray plastic surface is coated with a layer of durable plastic, providing a non-slip surface for added safety.

Packaging

We understand the importance of safe and efficient transportation of our products. That's why our Scaffolding Planks are packaged in containers, ensuring they arrive at your construction site in perfect condition. The container packaging also allows for easy handling and storage, saving you time and effort.

Material

Our Scaffolding Plank is made from high-quality steel, ensuring its durability and strength. The steel frame of the decking plank is designed to withstand heavy loads and provide a stable platform for workers to stand on. The galvanized steel material also adds an extra layer of protection against corrosion, ensuring the longevity of the product.

Customized Length

We understand that every construction project is unique and may require different lengths of scaffolding planks. That's why we offer customized length options for our Scaffolding Plank. You can choose the length that best suits your project's needs, making it a versatile and adaptable solution for any construction site.

Usage

The Scaffolding Plank is an essential component of any scaffolding system, providing a safe and stable platform for workers to perform their tasks. It can be used in various construction projects, including building construction, bridge construction, and maintenance work. Our Scaffolding Plank is a reliable and cost-effective solution for all your scaffolding needs.

Conclusion

In summary, our Scaffolding Plank is a high-quality and versatile product that is essential for any construction project. With its various surface options, container packaging, durable steel material, customizable length, and wide range of usage, it is the perfect choice for your scaffolding needs. Get in touch with us today to learn more about our Scaffolding Plank and how it can benefit your construction project.

Features:

Product Name: Scaffolding Plank

Surface:

Pre-galvanized

Hot Dip Galvanized

Spray Plastic

Material: Steel

Packaging: Container

Usage: Scaffolding

Length: Customized

Key Features:

Made of galvanized steel for durability and strength

Designed specifically as a support for construction projects

Pierced steel planking for enhanced grip and safety

Can be used as a scaffolding platform for workers and materials

Available in various lengths to fit different project needs

Technical Parameters:

Attribute	Value
Product Name	Galvanized Steel Planks
Product Type	Scaffolding Plank
Material	Steel
Place of Shipment	China
Length	Customized
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Packaging	Container

Usage	Scaffolding
Keywords	Galvanized Steel Planks, Galvanized Steel Scaffolding Plank, Galvanized Steel Plank Catwalk

Applications:

Scaffolding Plank - Bythai

Brand Name: Bythai

Place of Origin: China

Minimum Order Quantity: 1000

Price: 4.5-8.5

Delivery Time: 10-15

Payment Terms: container, shipping

Material: Steel

Place of Shipment: China

Length: Customized

Packaging: Container

Usage: Scaffolding

Designed and manufactured by Bythai, the Scaffolding Plank is an essential product for construction sites. Made of high-quality steel, this plank provides a strong and stable platform for workers to stand on while working at heights.

The Scaffolding Plank is designed to fit perfectly into the steel frame of scaffolding, providing a secure and level surface for workers to stand on. It is also available in a steel plank without hooks, which can be easily attached to the scaffolding frame for added safety and stability.

With its superior quality and durability, the Scaffolding Plank is the ideal choice for any construction site. It is able to withstand heavy loads and can be used for a variety of construction tasks, such as painting, plastering, and maintenance work.

Bythai offers a minimum order quantity of 1000 Scaffolding Planks, making it suitable for small to large construction projects. The price ranges from 4.5 to 8.5, depending on the quantity ordered. The delivery time is 10-15 days, ensuring that your construction project stays on schedule.

The payment terms for the Scaffolding Plank are container and shipping, making it convenient for customers to receive their order at the construction site. The product is shipped from China, the place of origin, ensuring its authenticity and quality.

The length of the Scaffolding Plank can be customized according to the customer's needs, providing flexibility for different construction projects. It is also packaged in containers, making it easy to transport and store.

The Scaffolding Plank is essential for any construction site, ensuring the safety and stability of workers. With Bythai's high-quality product and efficient delivery, your construction project will be completed with ease and efficiency.

Customization:

Customized Scaffolding Plank Services from Bythai

Product Description

Our scaffolding plank, made of high-quality galvanized steel, is a durable and reliable choice for your scaffolding needs. With a strong steel frame, it provides a sturdy platform for workers to perform their tasks safely and efficiently. Our scaffolding plank is suitable for use in various industries, including construction, maintenance, and repair work.

Customized Sizes

We understand that every project has unique requirements, which is why we offer customized sizes for our scaffolding plank. You can choose from a variety of lengths to fit your specific needs.

Surface Options

Our scaffolding plank is available in three surface options to suit different environments and needs. Choose from pre-galvanized, hot dip galvanized, or spray plastic surface finishes.

Packaging

To ensure safe and convenient transport, our scaffolding plank is packaged in containers for easy loading and unloading.

Material

Made from high-quality steel, our scaffolding plank is strong and durable, providing a safe and stable platform for workers.

Trust Bythai for all your scaffolding needs. Contact us today to discuss your requirements and to get a quote for our galvanized steel plank catwalk and steel frame for decking plank. Let us help you create a safe and efficient scaffolding platform with our customized services.

Packing and Shipping:

Scaffolding Plank Packaging and Shipping

Our Scaffolding Planks are carefully packaged and shipped to ensure safe and secure delivery. Each plank is wrapped in protective material and placed in sturdy cardboard boxes for added protection during transport.

Depending on the size of your order, we offer various packaging options to accommodate your needs. Our planks can be packaged in bundles, crates, or shipped on pallets for larger orders.

For international orders, we take extra precautions to ensure your planks arrive in perfect condition. They are carefully packed in wooden crates and secured with straps to prevent any damage during transit.

To further protect your planks, we also offer shrink wrapping services for an additional fee. This will provide an extra layer of protection against moisture and dirt during shipping.

Once your order is packaged and ready to ship, we work with trusted shipping companies to ensure timely delivery. We offer both domestic and international shipping options to meet your needs.

For domestic orders, we typically use ground shipping services, but expedited shipping is available upon request for an additional fee.

For international orders, we offer both air and sea freight options. Our team will work with you to determine the best method based on your location and delivery timeline.
Rest assured, our team takes great care in packaging and shipping your Scaffolding Planks to ensure they arrive in perfect condition.
Contact us today to place your order and experience our excellent packaging and shipping services.
