# Q235 multipurpose ringlock scaffolding european standard multidirectional for construction

# **Basic Information**

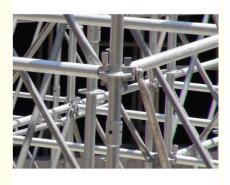

BY THAI

- Place of Origin:
- Brand Name:
- Certification: SGS
- Model Number: BM202
- Minimum Order 1000 Quantity:
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: TT/TC

# Product Specification

Highlight:	Q235 multipurpose ringlock scaffolding,
Application Scenarios:	Architecture
Product Name:	Ringlock System
Surface Treatment:	Hot-dip Galvanized
Material:	Q235 Steel
Shipping Origin:	China
Warranty:	2 Years

## **Product Description:**

Ringlock System Scaffolding

The Ringlock System Scaffolding is a versatile and durable Scaffold Coupler System that is designed to meet the high demands of the construction industry. Made from high quality Q235 Steel, this Ringlock Scaffold Connector is the perfect solution for your scaffolding needs. With its easy assembly and cost-effective design, it has become the preferred choice for many architects and construction companies.

#### Product Overview

The Ringlock System is a type of Modular Scaffolding that is highly adaptable and can be used for a wide range of applications. It is designed to provide safe and reliable access for workers at various heights, making it an essential tool for any construction project. With its strong and sturdy structure, it can support heavy loads and withstand harsh weather conditions, ensuring the safety and productivity of your workers.

Features and Benefits

There are numerous benefits to using the Ringlock System Scaffolding:

High Quality: Made from Q235 Steel, our Ringlock Scaffold Connectors are extremely strong and durable, ensuring the safety of your workers and the success of your project.

Easy Assembly: The modular design of the Ringlock System allows for quick and easy assembly, saving you time and labor costs.

Versatile Design: This system can be used for a variety of applications, including architecture, construction, maintenance, and more. Durable: With its strong and sturdy structure, the Ringlock System can withstand heavy loads and harsh weather conditions, making it a reliable choice for any project.

**Cost-effective:** Our Ringlock System Scaffolding offers a cost-effective solution for your scaffolding needs, providing high quality at an affordable price.

Application Scenarios

The Ringlock System Scaffolding is ideal for a variety of applications, with a focus on architecture. It can be used for the construction of buildings, bridges, towers, and more. Its versatility and adaptability make it suitable for both indoor and outdoor use, making it a popular choice for many construction projects.

#### Warranty

We stand behind the quality of our Ringlock System Scaffolding and offer a 2-year warranty for your peace of mind. In the unlikely event of any defects or issues, we will provide a replacement or refund.

Shipping Origin

Our Ringlock System Scaffolding is shipped directly from China, ensuring high quality and timely delivery. We work with reliable shipping companies to ensure that your order arrives safely and on time.

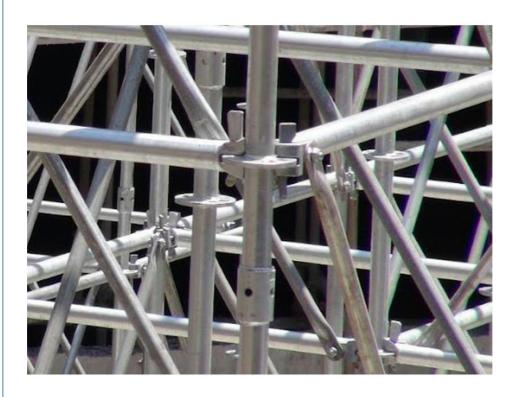

Choose the Ringlock System Scaffolding for your next construction project and experience the benefits of this high quality, easy to use, and versatile scaffolding solution. Contact us today for more information and to place your order.
