

## Ringlock System Scaffolding with Hot Dip Galvanized Q355 Steel Construction Scaffold

Our Product Introduction

for more products please visit us on [bythaiscaffold.com](http://bythaiscaffold.com)

### Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BM202
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

### Product Specification

- Surface Treatment: Hot Dip Galvanized
- Warranty: 2 Years
- Product Name: Ringlock System
- Material: Q235 Steel
- Shipping Origin: China
- Application Scenarios: Architecture
- Assembly Type: Quick And Easy
- Versatile: Yes
- Size: 48.3mm
- Product Type: Ringlock System
- Ledger Size: 48.3x3.25mm
- Diagonal Brace Length: 1.09m/1.36m/1.57m/1.83m/2.07m/2.57m
- Diagonal Brace Size: 48.3x2.5mm

## Product Description

### Product Description

One of the most significant features of the Ringlock System Scaffolding is its Secure Scaffolding Joints. Designed to withstand heavy loads and harsh environmental conditions, these joints provide a stable and solid foundation for any construction work. The Ringlock joints are precision-engineered for easy assembly and disassembly, allowing for rapid configuration and reconfiguration of scaffold structures. This flexibility not only saves time during the construction process but also reduces labor costs, making it a Cost-Effective Ring Lock System for a wide range of applications.

The Ringlock System Scaffolding stands out due to its versatility and is particularly well-suited for complex and high-demand architecture scenarios. Whether it's for new construction, renovation, or repair work, the system's modular design allows for seamless integration with different building shapes and designs. The scaffolding's adaptability makes it ideal for both temporary and permanent structures, providing a safe and secure platform for workers to perform their tasks at various heights and angles.

Every component of the Ringlock System Scaffolding is designed with safety and efficiency in mind. From the base plates to the standards, ledgers, and diagonal braces, every piece interlocks perfectly, creating a cohesive and sturdy structure. The system's advanced Ringlock Technology ensures that every connection point is robust and dependable, giving workers the confidence they need to focus on their work without worrying about the integrity of the scaffolding beneath them.

With a generous 2-year warranty, clients can be assured of the product's quality and reliability. The warranty covers any manufacturing defects or performance issues, giving you peace of mind that you are investing in a product that is built to last and backed by a commitment to customer satisfaction. The Ringlock System Scaffolding's warranty is a testament to the manufacturer's confidence in the product's design and the quality of materials used.

The Ringlock System Scaffolding is shipped from China, where it is manufactured under strict quality control measures to ensure that each component meets global standards. The logistics of shipping are handled with the utmost care, ensuring that the product arrives at its destination in pristine condition, and ready for immediate use upon delivery. The strategic shipping origin also allows for cost-effective distribution to various markets around the world, providing an affordable solution without compromising on quality or performance.

In conclusion, the Ringlock System Scaffolding is a state-of-the-art construction solution that combines Secure Scaffolding Joints, Cost-Effective Ring Lock System, and Advanced Ringlock Technology to deliver a product that is unparalleled in terms of safety, efficiency, and versatility. The use of hot-dip galvanized Q235 steel material ensures long-lasting performance, while the comprehensive 2-year warranty and strategic shipping from China make it an attractive option for architecture projects globally. For a scaffold system that rises above the rest, the Ringlock System Scaffolding is the clear choice for professionals who demand the best for their construction needs.

### Specification:

#### Ringlock Vertical Standard

Specification	Thickness(mm)	Length(mm)	Surface	Weight(kgs)
M48	3.2	500	HDG	2.56
M48	3.2	1000	HDG	4.99
M48	3.2	1500	HDG	7.45
M48	3.2	2000	HDG	9.95
M48	3.2	2500	HDG	12.43
M48	3.2	3000	HDG	14.87

**Certificates:**

The collage contains the following documents:

- Top Left:** hsc Quality Management Certification. Issued to Byfai Steelworking Co., Ltd. Registered address: No. 1265, Xingqiancheng Drive, Zhuzhou City, Hunan. Business address: 2716, Building 4, Gaochang Times Square, Yuhou District, Guangzhou City. Scope of certification: ISO 9001:2015. Date of issue: 2020-05-28.
- Top Middle:** SGS TEST REPORT. Customer name: Byfai Steelworking Co., Ltd. Address: No. 1265 Xingqiancheng Street, Zhuzhou City, Hunan, China. Test item: Galvanized Steel Pipe. Test date: 2020-05-28. Issued by: J. Zhang.
- Top Right:** SGS TEST REPORT. Customer name: BYFAN STEELWORKING CO., LTD. Address: NO. 1265 XINGQIANCHENG STREET, ZHUZHOU CITY, HUNAN, CHINA. Test item: Galvanized Steel Pipe. Test date: 2020-05-28. Issued by: J. Zhang.
- Bottom Left:** SGS TEST REPORT. Customer name: BYFAN STEELWORKING CO., LTD. Address: NO. 1265 XINGQIANCHENG STREET, ZHUZHOU CITY, HUNAN, CHINA. Test item: Galvanized Steel Pipe. Test date: 2020-05-28. Issued by: J. Zhang.
- Bottom Middle:** A technical drawing or specification sheet with various fields, a signature, and a stamp.
- Bottom Right:** A 'CERTIFIED TRUE COPY' stamp with a 'TELEX RELEASE' logo and a signature.

**FAQ:**

- Q: What types of scaffolding systems do you offer?
- A: We offer a variety of scaffolding systems, including ring lock, frame, prop, tube & coupler systems, steel and aluminum planks, and various scaffolding accessories.
- Q: How does your quality control process ensure the safety and reliability of your scaffolding products?
- A: Our strict quality control process includes thorough inspections, material testing, and adherence to international safety standards to ensure our scaffolding products are safe and reliable.
- Q: Can you provide customized scaffolding solutions to meet specific project requirements?
- A: Yes, we offer customized scaffolding solutions tailored to meet the unique needs of your project, ensuring optimal performance and safety.
- Q: What is the typical lead time for orders, and how do you handle urgent requests?
- A: Our standard lead time varies depending on the order size and complexity, but we prioritize urgent requests to ensure timely delivery without compromising quality.
- Q: Do you offer support and guidance for scaffolding assembly and installation?
- A: Yes, we provide comprehensive support, including detailed assembly instructions and technical assistance to ensure proper installation and safe use of our scaffolding systems.
- Q: What are the key advantages of using your aluminum ringlock system?
- A: Our aluminum ringlock system offers several advantages, including lightweight design, easy assembly, high load capacity, durability, and corrosion resistance, making it ideal for various construction projects.
- Q: How do your prices compare to other scaffolding suppliers?
- A: We offer competitive factory prices while maintaining high-quality standards, providing cost-effective solutions that deliver excellent value for your investment.
- Q: What certifications and standards do your scaffolding products meet?
- A: Our scaffolding products meet international certifications and standards, including OSHA, EN, and ISO, ensuring they comply with the highest safety and quality requirements.
- Q: Can you provide references or case studies from past projects?
- A: Yes, we can provide references and case studies showcasing our successful projects and satisfied customers to demonstrate our expertise and reliability.
- Q: What is the process for placing an order and what payment options do you accept?
- A: Placing an order is simple: contact our sales team with your requirements, receive a detailed quote, and finalize the order. We accept various payment options, including TT, letters of credit, and other secure methods.

**Product Description**

Introducing our Wholesale Q355 Hot-dip Galvanized Strength Ring Lock Scaffold, specially designed for the South American market. Made from Q355 steel, known for its high strength and durability, this scaffolding system is perfect for heavy-duty applications. The hot-dip galvanization process ensures excellent corrosion resistance, making it suitable for various climates and environments. Its modular design allows for flexible configurations, catering to diverse project requirements. Whether for construction, maintenance, or industrial applications, this ring lock scaffold provides a safe and stable platform. Benefit from

our competitive wholesale prices and reliable supply chain to South America, ensuring your projects stay on schedule and within budget.
