

Hot Dipped Galvanized Iron Round Pipe / Galvanized Erw Steel Tubes

Our Product Introduction

for more products please visit us on bythaiscaffold.com

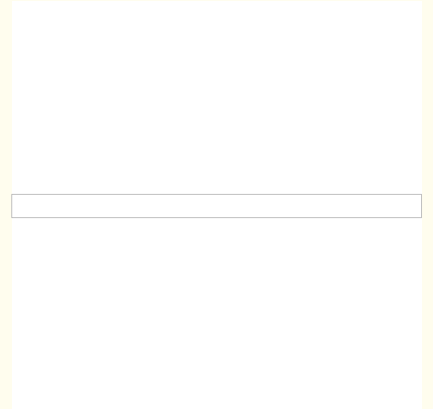

Basic Information

- Place of Origin: China
- Brand Name: Bythai Scaffolding
- Certification: SGS ISO
- Model Number: BT201
- Minimum Order Quantity: 1000
- Price: \$10-\$85
- Packaging Details: In bundles
- Delivery Time: 10-15 days
- Payment Terms: TT/LC
- Supply Ability: 1000tons per month

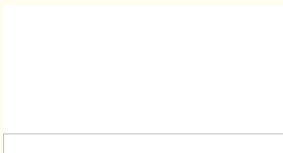

Product Specification

- Name: Galvanised Scaffold Tube
- Standard: EN39
- Weight: 6.4kg/m
- Material: Galvanised Steel
- Diameter: 48.3mm
- Surface Treatment: Galvanised
- Application: Scaffolding
- Thickness: 3.2mm
- Highlight: **Hot Dipped Galvanized Iron round pipe,
Galvanized Iron round pipe,
Galvanized Erw Steel Tubes**

Product Description

Technical Parameters:

Attribute	Value
Application	Scaffolding
Name	Galvanised Scaffold Tube
Diameter	48.3mm
Thickness	3.2mm
Weight	6.4kg/m
Material	Galvanised Steel
Tensile Strength	420N/mm ²
Yield Strength	245N/mm ²
Surface Treatment	Galvanised
Standard	EN39

Applications:

The Galvanised Scaffold Tube is a hot dip galvanized scaffolding steel tube that is perfect for any construction site. It is a standard EN39 product and has a yield strength of 245N/mm². It is also available as a galvanized scaffold tube 48. The surface treatment on this product is galvanised which provides a protective layer from rust and corrosion. These galvanised scaffold tubes are durable and long-lasting, making it an ideal product for construction sites.

The Galvanised Scaffold Tube is designed to be used in a variety of different occasions and scenarios. It can be used for indoor and outdoor construction projects and is perfect for building scaffolding systems. It is also ideal for use in the shipbuilding industry, as well as the oil and gas industry. The tubes are easy to install and can be cut to fit any desired length, making them versatile and adaptable to any project.

With a supply ability of 1000 tons per month, the Galvanised Scaffold Tube is a reliable and in-demand product. It is a cost-effective solution for any construction or industrial project that requires durable and long-lasting scaffolding. The payment terms for this product are TT/TC, making it easy for customers to purchase and receive their products in a timely manner.

Packing and Shipping:

Product: Galvanised Scaffold Tube

Dimensions: 48.3mm diameter x 4mm thickness x 6m length

Package Includes: 10 tubes per bundle

Shipping Method: Shipped on pallets via LTL carrier

Shipping Cost: Calculated based on distance and weight
