Product Description

Features:

Product Name: Scaffolding Coupler
 Material: Steel
 Package: Container
 Standard: EN74-1
 Surface Treatment: Galvanized
 Color: Silver
 Features:
 Universal Scaffold Clamping Tools
 British Coupler Manufacturers
 Scaffold and Structure Connectors

Technical Parameters:

Application	Construction
Name	Scaffolding Coupler
MOQ	1000
Material	Steel
Surface Treatment	Galvanized
Standard	EN74-1
Color	Silver
Feature	High Strength
Package	Container

Applications:

The Scaffolding Coupler is a manual scaffold connection tool that is used to connect scaffold pipes together. This product is designed in accordance with BS EN 74 Scaffold Accessories and is a British scaffold fixture, ensuring that it meets the highest standards of safety and durability. The coupler is silver in color and comes packaged in bundles for easy transport and storage.

The Scaffolding Coupler is suitable for a variety of construction scenarios and occasions, including but not limited to:

- Building construction
- Bridge construction
- Tunnel construction
- Industrial maintenance
- Shipbuilding

This versatile product can be used in both indoor and outdoor settings, making it a valuable addition to any construction project. Its high-strength design ensures that it can withstand heavy loads and harsh weather conditions, providing reliable and secure connections between scaffold pipes.

With a delivery time of 15-25 days, you can rest assured that you will receive your Scaffolding Coupler in a timely manner. Payment terms include TT/TC, making it easy and convenient for you to purchase this product. It is packaged in containers, making it easy to transport and store on site.

In summary, the Scaffolding Coupler is a must-have tool for any construction site. Its high-strength design, British scaffold fixture certification, and compliance with BS EN 74 Scaffold Accessories make it a reliable and safe product. Whether you are building a skyscraper or repairing a bridge, the Scaffolding Coupler is the perfect choice for manual scaffold connections.
