

Hot dip Galvanized Q235 Steel Industrial steel ringlock scaffolding

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS ISO
- Model Number: BT203
- Minimum Order Quantity: 1000
- Price: 10.8-85.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Product Name: Ringlock System
- Warranty: 2 Years
- Material: Q235 Steel
- Application Scenarios: Architecture
- Application: Building
- Shipping Origin: China
- Surface Treatment: Hot-dip Galvanized
- Design Style: Industrial
- Highlight: Industrial steel ringlock scaffolding,
Hot dip Galvanized ringlock scaffolding,
Q235 Steel ringlock scaffolding

Product Description

Product Description:

Our Ringlock System Scaffolding is a type of modular scaffold that has become increasingly popular in the construction industry. The innovative Ring Lock Design allows for quick and easy assembly, making it an ideal choice for construction sites that require repeated assembly and disassembly.

The Ringlock System Scaffolding features a Soporte Diagonal Ringlock, which provides additional support to the scaffold structure. This makes it a safe and stable option for construction workers.

Made in Tianjin, China, our Ringlock System Scaffolding is constructed using high-quality materials and the latest technology. The surface treatment is done through hot-dip galvanizing, which gives the scaffold a durable and corrosion-resistant finish.

Our Ringlock System Scaffolding comes with a 2-year warranty, ensuring that you have peace of mind when using our product.

Whether you are working on a construction site, industrial project, or any other type of project, our Ringlock System Scaffolding is the perfect choice. It is easy to assemble and disassemble, making it an ideal option for projects that require mobility and versatility.

Our Ringlock System Scaffolding is shipped directly from China, and we provide excellent customer support to ensure that you have a hassle-free experience.

Invest in our Ringlock System Scaffolding today and experience the benefits of an innovative and high-quality scaffold that will last you for years to come.

Features:

Product Name: Ringlock System Scaffolding

Shipping origin: China

Warranty: 2 Years

Application scenarios: Architecture

Design Style: Industrial

Material: Q235 Steel

Ring lock type scaffold

Cost-Effective Ring Lock System

Ringlock ledger head

Technical Parameters:

Product Name	Versatile Ringlock Scaffold
Application	Building
Application Scenarios	Architecture
Shipping Origin	China
Place of Origin	Tianjin China
Material	Q235 Steel
Warranty	2 Years
Surface Treatment	Hot-dip Galvanized
Design Style	Industrial
Product Type	Ringlock Type Scaffold
Unique Feature	Ringlock Rosette

Applications:

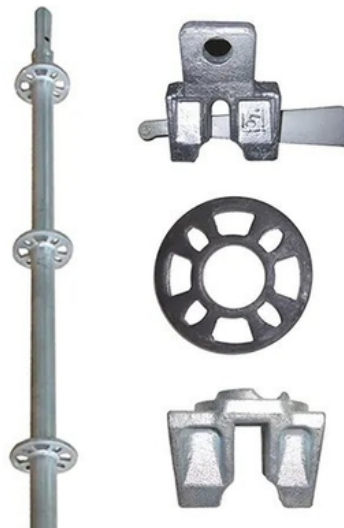

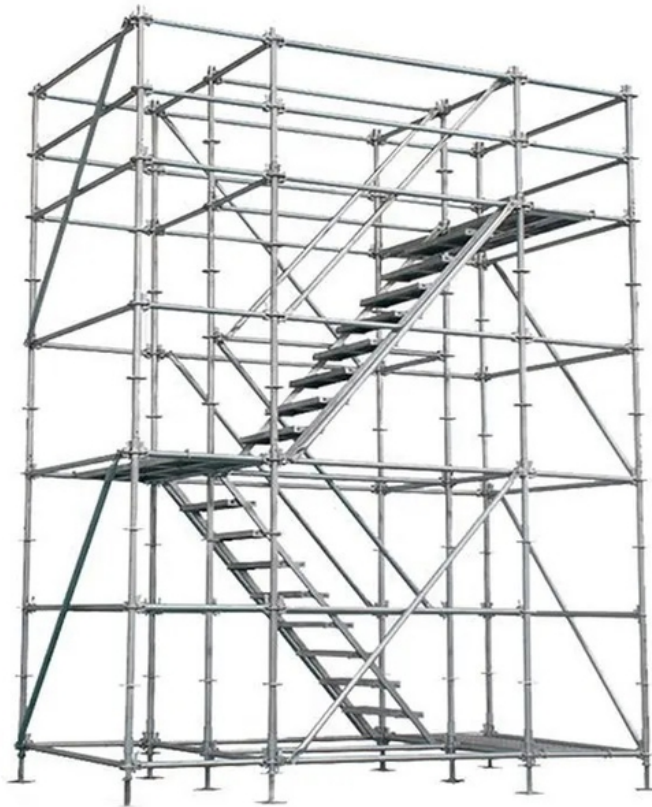

With SGS ISO certification, you can be confident that the BT203 Ringlock System Scaffolding is a reliable and safe choice for your construction needs. This product is manufactured in Tianjin, China, and is available at a cost-effective price range of \$10.8-85.5. The minimum order quantity for this product is 1000 units.

The Ringlock System Scaffolding is designed to be versatile and adaptable to different construction scenarios and occasions. It is suitable for use in building construction, bridge construction, shipbuilding, and other heavy-duty construction projects. The scaffolding system is easy to assemble and disassemble, making it a great choice for projects that require frequent setup and teardown.

The Ringlock System Scaffolding is also ideal for use in scenarios where space is limited. Its compact design allows it to fit into tight spaces, making it a great choice for projects in urban areas or other areas with limited space.

The BT203 Ringlock System Scaffolding comes with a 2-year warranty, ensuring that you can rely on this product for years to come. It is packaged in bundles and can be delivered within 10-15 days of order placement. Payment terms include TT/TC, making it easy and convenient to purchase this product.

In conclusion, if you are in need of a reliable and cost-effective Ring Lock System for your construction project, look no further than Bythai's BT203 Ringlock System Scaffolding. With its sturdy construction, versatile design, and easy assembly, this product is the perfect choice for a wide range of construction scenarios and occasions.
