Product Description

Product Description:

Hot-Dipped Galvanized Q235 Golden JIS Double Coupler for Scaffolding: Strength, Durability, and Efficiency

Features:

Superior Strength: Constructed from robust Q235 steel, this double coupler offers exceptional load-bearing capacity for demanding construction projects.

Hot-Dip Galvanized Coating: The zinc coating provides superior corrosion resistance, extending the lifespan of the coupler and minimizing maintenance costs.

Golden JIS Standard: Complies with the stringent Japanese Industrial Standards (JIS), ensuring the coupler meets the highest quality and safety requirements.

Double Connection Points: This coupler facilitates the secure connection of two scaffold tubes at right angles, enhancing stability and versatility.

Efficient Assembly: The intuitive design allows for quick and easy connection of scaffold tubes, saving time and labor costs on the job site.

Additional Benefits:

Durable Construction: This coupler ensures long-lasting performance, built to withstand the rigors of construction environments.

Safety-Focused Design: The secure locking mechanism guarantees a reliable connection between scaffold tubes, prioritizing worker safety.

Compatible with Scaffolding Systems: This double coupler seamlessly integrates with various scaffolding systems, offering greater flexibility for your projects.

Technical Parameters:

Attribute	Value
Name	Scaffolding Coupler
Package	Container
Feature	High Strength
Color	Silver
Material	Steel
Standard	EN74-1
MOQ	1000
Surface Treatment	Galvanized
Application	Construction
Japanese-style Scaffold Connectors	Yes
Right Angle Coupler	Yes
Keyword	Scaffolding Coupler

Applications:

Scaffolding Coupler - Your Reliable Partner on the Construction Site

Are you tired of struggling with unstable and unreliable scaffoldings on your construction site? Look no further, because Scaffolding Coupler is here to provide you with the perfect solution.

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China Tianjin

With a minimum order quantity of 1000, Scaffolding Coupler is the ideal choice for any construction project, big or small.

At a competitive price of 4.5, this high-quality product is definitely worth the investment. With a delivery time of 15-25 days, you can rely on us to provide you with timely and efficient service.

Why Choose Scaffolding Coupler?

There are many reasons why Scaffolding Coupler stands out from the rest:

High Strength: Made from Japanese Steel Pipe Connectors, our couplers are built to withstand heavy loads and provide maximum stability.

Easy Installation: Our couplers are designed for easy installation, making your construction process smoother and more efficient.

Safety: With our couplers, you can ensure the safety of your workers and the stability of your structures, reducing the risk of

accidents on the construction site.

Durable: Our couplers are galvanized, providing protection against rust and corrosion, making them durable and long-lasting.

Efficient: Scaffolding Coupler improves the efficiency of your construction process, saving you time and money.

Product Specifications

Scaffolding Coupler is designed according to international standards, specifically EN74-1, ensuring its quality and reliability.

Package: Container

Surface Treatment: Galvanized

Color: Silver

With these specifications, you can trust that Scaffolding Coupler will meet all your construction needs.

Application and Scenarios

Scaffolding Coupler is suitable for various construction projects, such as:

Building construction

Bridge construction

Tunnel construction

Shipbuilding

And more!

Our product is especially useful for projects that require high levels of safety and stability, such as high-rise constructions and heavy-duty structures.

Picture this: A group of workers are assembling scaffolding on a construction site, using a Scaffolding Coupler. With its easy installation process, they can quickly and securely connect the scaffolding pieces, ensuring the safety of themselves and those working on the site. Thanks to the high strength of our couplers, the scaffolding remains stable even with heavy loads, providing a secure platform for workers to complete their tasks efficiently. With the durable galvanized surface treatment, our couplers can withstand harsh weather conditions, making them suitable for both indoor and outdoor use.

Make the wise choice and choose the Scaffolding Coupler for all your construction needs. Contact us today to place your order and experience the difference in quality and efficiency on your construction site.

Customization:

Scaffolding Coupler Customization Service

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China Tianjin

Minimum Order Quantity: 1000

Price: 4.5

Delivery Time: 15-25 days

Standard: EN74-1

Surface Treatment: Galvanized

Color: Silver

Name: Scaffolding Coupler

MOQ: 1000

Customize your scaffolding coupler with our Rotating Clamp Scaffold, Fixed Fasteners, and Right Angle Coupler options. Our delivery time is 15-25 days from the date of order. Trust in our reliable and efficient customization service for your scaffolding coupler needs.

Support and Services:

Technical Support and Services for Scaffolding Coupler

At our company, we strive to provide the highest level of technical support and services for our Scaffolding Coupler product. Our team of experts is dedicated to ensuring that our customers have a seamless experience from purchase to installation and beyond.

Installation Support

Our team of trained professionals is available to assist with the installation of our Scaffolding Coupler. We provide step-by-step instructions and guidance to ensure that the coupler is installed correctly and safely.

Technical Assistance

If you encounter any technical issues with our Scaffolding Coupler, our team is here to help. We offer 24/7 technical support to troubleshoot any problems and provide solutions to keep your project running smoothly.

Product Maintenance

To ensure the longevity and optimal performance of our Scaffolding Coupler, we offer regular maintenance services. Our team will conduct thorough inspections and make any necessary repairs or replacements to keep your coupler functioning at its best.

Customization Options

We understand that every project is unique and may require specific coupler configurations. That's why we offer customization options for

our scaffolding coupler to meet your specific needs. Our team will work closely with you to design and manufacture a coupler that fits your project perfectly.

Training and Education

Proper training is essential for the safe and efficient use of our Scaffolding Coupler. We offer training and education sessions for our customers to ensure they have a thorough understanding of how to use and maintain our product.

Customer Support

At our company, we value our customers and strive to provide the best support possible. Our customer service team is always available to answer any questions or concerns and provide assistance whenever needed.

Thank you for choosing our Scaffolding Coupler. We are committed to providing top-notch technical support and services to ensure your satisfaction with our product. Please do not hesitate to contact us for any further assistance.

Packing and Shipping:

Packaging and Shipping for Scaffolding Coupler

Packaging

The Scaffolding Coupler is carefully packaged to ensure safe delivery to our customers. The packaging includes:

Individual couplers are wrapped in protective material to prevent scratches and damage during transit.

Multiple couplers are then placed in a sturdy cardboard box.

The box is sealed with tape and labeled with the product name and quantity.

Shipping

We offer various shipping options to accommodate our customers' needs:

Standard shipping: Our standard shipping option is via ground transportation. This may take up to 5-7 business days for delivery.

Expedited shipping: For urgent orders, we offer expedited shipping via air transport. This typically takes 2-3 business days for delivery.

International shipping: We also ship our Scaffolding Couplers internationally. Delivery times may vary depending on the destination country.

Once your order has been shipped, we will provide you with a tracking number so you can monitor the status of your delivery.

For bulk orders, please contact us directly for customized packaging and shipping options.
